

Cambridge Nov. 20/82

Dr J W Dawson

My dear Sir

Dr Hunt will doubtless
have told you of the journal I am
about to edit and of the favorable
reception it has met with from scientific
men - My object in this brief note
is to express the hope that you will
occasionally contribute to it, and
that you will permit the use of
your name as one of its supporters

Yours very truly

Sam. J. Gutter
