My Dear Doctor Dawson

May I encroach on your well known kindness? I am asked for an Article on Montreal for the Encyclopaedia Britannica. There is, no doubt, some City guide or other description of the place, with recent & trustworthy details; as well as some historical notes.

You will do me a great favour, if you will kindly bid your bookseller

forward to me, by mail,  
the best book; and send  
me a note of its price,  
I shall send him a  
P.O. order in return.

I am busy, as you  
no doubt are, with  
Examination Work.

I see you had the grace  
not to encourage the  
Kingston rebels with  
an offer of welcome  
& defile. Our  
Trinity Medical School

has scarcely won creditable  
laurels by its readiness  
to get pupils on any  
terms.

Co-education will  
bring trouble in any  
Faculty. In the Medical  
Faculty it presents the greatest  
difficulties. At the same  
time there is more excuse  
for it there than in other  
Faculties; for it is scarcely  
possible to start Medical  
Schools for the small  
number of lady students  
even likely to appear.

I presume you are looking

eagerly forward to the  
Christmas holidays. I have  
some work for that leisure  
time, which if not done  
then we'll have to live  
over till June.

All kindest greetings  
to the Household at  
McGill College.

Yours faithfully  
D. M. Wilson
