

Ithaca N.Y.
19. June. '83.

Dear Sir:

I have accept my
cordial thanks for the corrections
made in my list of Chemung
fossils, also for the copy of
Pt. II "Fossil Plants";

The name of Garpe plant bed
were not overlooked, but as
you suggest, I had supposed
that they were more likely the
Equivalents of what we call
"Catakill" in so far as that
group is distinct from the Chemung.

With sincere esteem

Yours obt servant

Henry Williams

To
Dr. J. W. Dawson.

Montreal.
