

Jan. 22/83.

Prof. Dawson.

Dear Sir:

I hasten to answer your Letter of the 20th inst, moreover as I wish to inform you that I shall send you the mounted Deer at the end of this Week, wheather permitting. Of the mountings, I have only the Skull & Horns, the Skins being worthless because the Head was never skinned but only dried like a Mummy.

I therefore await your Order whether I shall send you the Remains as they are, or whether I shall clean and put the Skull together properly. The Deerhead of which speak, is unknown to me as I never received one by your adress, it must probably be in the Hands of another Taxidermist.

Expecting to hear more on the above Subject I remain
most respectfully.

Yours.

Kuebing
