My dear Dr Lawson

your two letters of
the 19th are received, I regret that I did
not see you on Saturday, but hope I
may have time on Saturday first, they
crowd every thing on me now on Saturday
it was near ten o'clock at night before
I was able to place my last signature
to bundles of Papers that were waiting for
me - but I will make an appointment
with you, if I cannot be at the meeting
of Governors

I called ^{on Dilley} with two Petitions and
had pleasant talks with him about the reduction
of duty on Bibles &c. also on every thing

connected with Educational work. I
much regret that Principal Frank was
not with ^{me} Pillsbury appeared very much
disposed to do something for us. I hope
he would be able to say something
definite, ^{to Frank & others} and remove these duties.

yours very truly

Sherris
