

Montreal March 26th 1883

Dear Sir

I have examined
the insects offered for sale
by Mr. Bently, The Lepidoptera
number about fifty specimens
arranged in an ornamental
case and are mostly large
showy ^{not named} Butterflies and moths.
The price of the case is \$25.40.

There is also a small collection
of Coleoptera, not fixed or
named, price \$13.20 but as
some species are in duplicate
one specimen of each would
be sold

Yours respectfully,

F. B. Coulfield

Principal Dawson.
