Toronto, March 30th 1883

Principal Dawson C.M.G.L.L.D. F.R.S.
Montreal.

Dear Sir.-

We learn that the question of a uniform series of text-books for the use of the schools in the Province, is now under consideration. We take the liberty of sending you a few of our publications especially those suitable for elementary classes which are at present largely in use in the Province of Quebec, and used almost exclusively in Ontario, Nova Scotia and Manitoba.

We append a list of the retail prices of the books, and shall be glad to find that the works commend themselves to your consideration. Should you desire to see any of our more advanced text-books we shall be glad to send you copies for examination. Among the books we send a little primer Geography. The low price it is sold at, and the full details given, as far as Canada is concerned will make it worthy of consideration. If it be adopted for Quebec we shall be pleased to publish a special addition giving good map and as complete text as that occupied by Ontario. In addition to the above mentioned books we send you a set of our New Canadian Readers as now issued. Since their first appearance we have spent some five or six thousand dollars in adding to the illustrations in the elementary numbers, and now they stand unrivalled as school readers. Trusting that our publication forwarded will meet your favorable
