

SCIENCE:

An Illustrated Weekly Journal.

MOSES KING, PUBLISHER,
CAMBRIDGE, MASS.

EDITOR'S OFFICE,

Cambridge, April 7 1883

My dear Dr. Dawson

Will you write me a good leader
upon the contemplated meeting of the
British Assoc. at Montreal, urging their coming
to a favorable conclusion & pointing out the
advantages to arise therefrom to Science
and brotherhood? I should like to use it
as an editorial, in the hope it may not
be without its influence. I may
add that for such contributions we
pay our highest rates.

Trusting that you will favor me
with it at an early day, I remain

Ever sincerely yours

Moses King
