

Stewart
Quebec May 4 1883

My dear Dr Dawson

Will you please
let me have on a
very brief scale, say in
250 or 450 words, the Geological
formations, ^{structure &c} to be found
in the Territories of New
Brunswick and Nova
Scotia? I know you are
always very busy, but I
prefer to ask you to help
me than anyone else.
I want exact information
but only in a very general
way, and I want it soon.

I hope to see you in
Ottawa on the 22nd when
are you going up?

I have been so busy
 this year that I am quite
 unable to write a
 paper for our Section.

What a splendid
 meeting we had made
 this year.

With cordial regards

I am dear Dr Dawson

Always yours

Leys Stewart
