SPENCER F. BAIRD,
SECRETARY.

Washington, D. C., June 4, 1883

Dear Dr. Dawson:

Please arrange for the transmission to Mr. L. M. Turner, at Ungava Bay, by the next shipment of the Hudsons Bay Co., of twenty gallons of methylated spirit, medicated with tartar emetic at the rate of about one-quarter ounce to the gallon, and have it invoiced as solution of tartar emetic, in accordance with your suggestion.

I will also be

greatly obliged if you will
arrange to have the other
articles purchased that
are mentioned on the accom-
panying memorandum.

The bills for the same will
be duly and promptly paid
on presentation.

I am pleased
to know that there will be
no conflict of claim between
the Peter Redpath Museum
and that of M^r Gill College.

It makes it much more
convenient to concentrate
everything in one depository.
I have no doubt that
I can send some acceptable
collections

S. J. W. D.

collections to the Ottawa
Museum. I presume, however,
that you prefer the best
of all we have to go to
Montreal.

Yours truly,

Dr. J. W. Dawson, } Spencer Baird
McGill College, }
Montreal, Canada. }
