

Smithsonian Institution

SPENCER F. BAIRD,
SECRETARY.

Washington, D. C., June 21, 1883.

Dear Dr. Dawson:

The enclosed letter of June 4th has been held to see if there was anything additional to be done.

I have concluded to send everything needed by Mr. Turner direct from Washington, to the care of the U.S. Consul General at Montreal, with the exception of the 20 gallons of methylated spirits, which I shall be glad to have you obtain and transmit. This will, for the present, complete

the requirements for the
occasion in question.

Yours truly,
Spencer Baird

Dr. J. W. Dawson,
McGill College,
Montreal.
