American Association for the Advancement of Science.

OFFICE OF THE PERMANENT SECRETARY.

F. W. PUTNAM, Permanent Secretary,  
Office, Bank Building, Central St.

Camb.  
Salem, Mass., July 7 1885

Dear Dr. Dawson

I have sent you <sup>addition</sup> ~~addition~~  
press to press. It will  
<sup>probably</sup> be set at end of yr address  
& you can mark or proof  
just when you wish it  
inserted.

At the Montreal meeting, Prof.  
Barker of Chicard. was offered  
to prepare a memoir on the  
late Prof. Wm B. Rogers, to be read  
at Union meeting. Rogers &  
Morgan, two past presidents died  
during the year ending with  
the Montreal meeting & their  
deaths were mentioned at that meeting.  
So you are not called upon  
to refer to them officially unless  
you wish to - I have just seen

noticed in last Session of  
the death of Alexander of  
Brinceton, who was also a  
past President, & I suppose  
it would be well for either  
you or Prof. Young to refer  
to his death. Prof. Young is  
his successor in a measure, at  
Brinceton, & he could do it  
very well if you wish to turn  
it over to him.

Yours very truly  
J. M. Truman

Letter from Winchester to-day  
states that all is going  
well in Min. & that Local  
Com. circular will be out  
next week.

J. M. T.

Dr. J. M. Dawson  
Montreal
