

High School Meeting

11<sup>th</sup> July 1883

My Dear Dr. Dawson,

I cannot refrain from expressing  
to you the gratification I feel, in common  
with my fellow-teachers, at the change,  
so vital & beneficial, which are taking  
place in connection with the Normal School.  
I am acknowledging our deep obligations  
for the wisdom & energy again displayed  
in the educational affairs of this country.

We shall feel most keenly your  
absence from the Board in the critical  
days to come, but our hope is that  
you may long be spared to continue  
your grand life-work.

Very truly yours

Thos. Hillier
