

Sheboygan Falls Wis

July 26th 1883

Prof. J W Dawson
Dear Sir

Your letter of the 20th inst
and the "Review of Wallace" was
recd Tuesday 24th The story of the Earth
last evening for all of which please
receive my thanks - I shall prize
them very much -

Dawson
If I understand you it is your
purpose to visit Minneapolis this
summer - Can you make it
in your way to visit this region
I am quite certain you would
be interested to see for yourself
If you go by way of Milwaukee
you can come from that city in
2 hours by the Lake Shore & Western
leaving Milwaukee at 3:30 p.m.
for Sheboygan Falls & return

Round ticket \$3.75 you would find
a plain farm house but a true
welcome it need not cost anything
for a week or more here I would
take you and to the Kettle range
and to other objects of interest
I think the subject drift is
pretty well illustrated here
If you conclude to come drop
me a card

Very Truly Yours

J. H. Denison
