

Hatfield 12 Sep 1883

My dear Principal

I was delighted  
yesterday <sup>morning</sup> finding in the  
Agricultural Gazette of the  
6th the presentation to your  
self of the previous day  
and the list of so many  
wonderful men among your  
fellow citizens who assisted  
in doing you honor -  
This movement and the  
handsome contribution  
they have made for  
your travelling expenses  
reflect credit on them  
selves and cannot but  
be highly gratifying to your  
own family and to your  
many friends. I have

no information of your  
movements and can not  
ascertain whether Mr  
Hansen accompanied  
you as she probably  
will and beg to offer  
in my sincere and warm  
hospitalities. I beg also  
to acknowledge the  
receipt of your  
kind card to advise the  
young couple of my  
very best wishes.

The history you  
give of the developing  
progress & success of  
your University since  
1851 and the independ-  
ent & grand position

it now holds should  
stimulate us to a  
more zealous support  
of the cause. It may be  
said that we must be content to  
remain in the long interval  
which separates our  
little colony from the  
rest of the world.

Believe me ever

Yours sincerely

W Young
