

Cambridge Oct 27/83

My dear Dawson

It was very pleasant to hear from you in England & to receive the pamphlet of Mr Higgins which was new to me. May I keep it? The insects are rather fragmentary but if I could see them I might make something out of them - I will write Mr Higgins by this mail & send him a copy of my paper on English Carboniferous insects. If you should in your journey call on the Rev^d P. B. Brodie Rowington vicar of Don by Warwick you would enjoy both him and his remarkable collection of Lias fossils

You would do well to go
out of your way for it, and
he would welcome you both
on your own account and
as a friend of mine

With best wishes

Very sincerely yours

Saml. W. Cudde
