

Woodhurst

Fallowfield,

Manchester

2. v. 84

Dear Dr. Dawson,

I shall like to meet you at  
the Brit. Ass. Co. on Tuesday - and  
afterwards, if you are not engaged -  
I could see you first on Wednesday -  
and - if I am whisked off on business  
to Bristol I shall like to hear you at  
Soc. Arts.

Could you give us the paper at Monday?

I - Dear Dr. Dawson

J. Dawson

Yours truly  
W. Boyd Dawkins

# British Association for the Advancement of Science.

---

## MONTREAL MEETING, 1884.

---

Besides subjects of general Anthropological interest, the following specially American topics, as to several of which Canada affords important evidence, are suggested for Papers to be read in the Anthropological Section.

The Papers on each subject will, as far as possible, be grouped for reading on the same day, so as to ensure a general discussion.

---

- I. The Native Races of America: their Physical Characters and Origin.
  - II. Civilisation of America before the time of Columbus, with particular reference to earlier intercourse with the Old World.
  - III. Archæology of North America; ancient mounds and earth-works, cliff-dwellings and village-houses, stone architecture of Mexico and Central America, &c.
  - IV. Native Languages of America.
  - V. European Colonisation and its effects on the Native Tribes of America.
- 

It is requested that all Papers may be sent to the Office of the Association, 22 Albemarle Street, London, W., on or before July 1st.
