

9, VICTORIA CHAMBERS,

LONDON. S.W.

30 June, 1884

Dear Dr. Dawson,

Permit me to introduce
to you Mr. Soire Smith, a
member of the Royal
Commission on Technical
Instruction whose very
valuable report has
recently been presented
to the Superior Parliament.

Mr. Soire Smith is
proceeding to Canada to

attend the meeting of
the British Association,
and he desires, during his
stay in the country, to
make some inquiries
respecting various matters
in which he takes an
interest, particularly
with regard to technical
Education. I feel sanguine
that it is only necessary
for me to give him this
note of introduction to
you to ensure his receiving
a deal of valuable

information and advice
upon these subjects.

Thanking you in
anticipation.

Believe me,

Yours very truly,

Josef Colinet

Dr. Dawson, C.M.G.,

McGill College,

Montreal,

Canada.
