Permit me to add how grateful the friends of the College felt for the encouragement you gave the Prof. & students during your visit. We have recently sent out one or two new men, who are sound in the Faith & sound in Science. We trust this Missionary College will honor both religion & science. We shall not hesitate to purge it of any adverse elements in these directions. The new Prof. seem to be thoroughly reliable, and we are most grateful to tell you that a remarkable spiritual awakening is now in progress among the students. For beyond

anything similar ever known
in Syria - We pray that blessed
& permanent results may be
seen. Thanking you again for
the proposed gifts to the College
& Mission, & assuring you that
they will be highly apprecia-
-ted. Believe me

Very Dear Mr Dawson
Very sincerely
Stuart Dodge
