My dear Sir

I expect to have  
copy of Synopsis of the  
Species of Div. 1 of John Br.  
for your, Can. Nat. in a  
week or 10 days. No species  
are described. I could  
write for the Nat. if you  
desire a short paper on a  
new genus of Pteropod, with  
camerated shell, if the N<sup>o</sup>  
is likely to be out soon.  
Two or three little wood  
cuts would be required  
to make the description  
clear. I have recovered  
a good head of Paradipides  
Mac and can now give  
necessary description. G. F. M
