My dear Sir William,

Mr. McCharles read a paper a few weeks ago before the Canadian Institute on "The Cuttle-Fishes of the North-West." I was not present, but my assistant who was gave me the impression that the author is an amateur fossil hunter without scientific training - Dr. Mc the President of the Inst. appears to share this opinion - The ~~paper~~ paper was on fossils from the neighbourhood of Winnipeg, with the names of which the author appeared to be familiar.

Yours very truly
