

ASTOR HOUSE.

ON THE EUROPEAN PLAN.
BROADWAY & VESEY ST.New York, May 7th 1885.

Dear Sir William -

I am sending
a small parcel - by Express
directed Mus. Arts. & Phil
College Montreal. It contains
a few specimens from the
Volcano Region of Nicaragua.
The craters worn pumice
and pebbles are from the shores
of Lake Managua - at the
foot of the Hornolombos
Volcano. a magnificent
cone 4000 feet high. The
volcano still smokes.
Trusting that my first letter
and the cases reached you
safely - I remain
Yours faithfully

Wolfe Nelson
Sir W. Dawson Keary
