

Lansdowne

Dublin 1 July 83

Dear Sir William

I duly received your
note of 26th ult. respecting
Kalm's statement & turned
up the work (the Natural
French condensation of 1881)
at Page 174, II Part, I
found his description of
the Montmorency Paper-stone
"Pierre à la almost"

I shall make enquiry about
the matter: in the meantime
Dr Selwyn being on a tour
of inspection, at Montmorency
&c. I have immediately
written him on the subject
Should any thing turn
up, I will advise you

What a pity, our Montreal
"Société Historique" did not
give a full translation
of Kalm -

I read the English Version
many years ago.

I am bringing out an
other semi-historical
work

My regards to Lady Dawson
& Mrs - Dawson - I have
not forgotten your generous
hospitality in Montreal &
wonder if you are enjoying
life in your charming city

Ever yours truly

Dr Th^o Dawson J. B. De Meuse
Montreal
