"Tandem fit Sarculus Arbor"

Montreal, August 10<sup>th</sup> 1885

Sir Mr Dawson,

My Dear Sir:

We desire a little sketch of Mr. W. Davis for our next number of the Record. Can you give it for us? We would also be glad if you could give us a sketch in its scientific aspects, of his life and vicinity. The third number of the Record is now being distributed. When shall I send your wood cut? The work of the editorial Committee is progressing most favorably, and I think by the time the fourth number appears, we shall have made some desirable changes.

Please present my kind regards to Lady and Miss Dawson and accept the same for yourself.

Very truly yours  
D. P. Pugh

Richardson
