

Private

White

Ottawa,
August 31st, 1885.

My dear Sir William,

Among the many letters of congratulation which I have received on my recent appointment, there is none that I esteem more highly than that which you are pleased to send me.

Sir Charles Tupper is working hard to enlist the hearty sympathy of the Government and the people in the Colonial Exhibition.

2/

I hope to see him before long, and will mention to him the particular matter to which you refer, as affecting the scientific side of the Exhibition, and in connection with which I entirely agree with you in the suggestions you make.

Yours very truly,
J. H. White
