

Fletcher

Ottawa, Sep. 10 1885.

Sir William Dawson
Principal
McGill University
Montreal

My Dear Sir. P.S.

I have received a letter from Prof. Macoun asking me to write and get from you a list of the trees you have had photographed at Montreal, for the collection to be sent to the Exhibition in London next

Year. Dr Geo. Dawson
informed me that at
the University grounds
were several fine
specimens of our
Native trees. If you
have already had
some of these photo-
graphed - I shall
be glad of a list
of them, so that
I may not get
duplicates done here.
I had the pleasure
of spending a week
in Victoria at the

More time as Dr. George
Dawson, and had
a charming drive
of about 60 miles
with him to Sooke
Harbour.

Allow me to take
this opportunity to thank
you for your kind
efforts in getting me
elected a Fellow of
the Royal Society
which honour was
a great surprise
and of course a

great pleasure to
me -

Hoping to hear from
you at your convenience

I am, my dear Sir

Yours respectfully

J. Fletcher
