

Toronto

6th Nov. 1885

My Dear Sir William

I am gratified to learn by your note of today that all printing Committee business of the R. S. C. has been got into good shape in spite of my neglect of what a President should do. Many thanks for your efficient interposition.

I sent the M.S. of a second paper of mine "Palaeolithic Dexterity." My intention was only to send one; and this latter I had purposely reserved

for the Canadian Journal;
but it was urged on me
that our English literature
section was richer in space
than paper. Please
understand that I shall
be perfectly content to
have it omitted; only if
it is not to be printed, I
shall feel obliged by
you asking Mr. Goodale
to return it at once.

Excuse a hasty line
as I have to go at once
to a meeting of a Senate

Committee, the precursor
of a meeting which I
hope may close before
midnight.

Kindest remembrances
to Lady Dawson; and all
the home circle.

Yours faithfully
Dan. Tilton

Welm
