

GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn L.L.D., F.R.S., Director.

MUSEUM & OFFICE, SUSSEX ST. OTTAWA.

Nov. 9th, 1885.

To Sir William Dawson, L.L.D., F.R.S., &c.

Dear Sir,

We have recently received from Mr Francis Bain a small series of fossil plants from the Permo-Carboniferous (?) of Prince Edward Island.

Mr Bain thinks that among the ferns there are some specimens of interest.

If you would like to see the whole collection we shall be very happy to send it down for your inspection. There are not more than some 30 or 40 specimens in it. It would doubtless not take you more than a few minutes to look over them. Still, with one or two exceptions, they are all that we have from that horizon & locality, & as such we should much like to get them named.

Very truly yours,

J. F. Whiteaves.
