APPALACHIAN DIVISION OF GEOLOGY

WASHINGTON D. C., Dec. 7, 1885.

Sir J. W. Dawson,

Montreal, Canada.

My dear sir,

During the past field season I spent 7 months in examining the Triassic area south of the Potomac, and with the opening of spring hope to continue my studies northward along the same belt. It is my expectation to carry out a systematic study of this formation and to publish the results in the form of a monograph. So many observers have preceded me that it is necessary to review all that has been written on the Trias on the Atlantic border, and in this connection I wish to obtain copies of all the essays concerning the formation which have been published. For this purpose I venture to request that if convenient, you will have the kindness to send me copies of your contributions on the subject. Trusting that you may be able to favor my request, I remain,

very respectfully,

J. C. Russell
