

Dr Smith

Montreal 20th June 1886

Dear Mr William Dawson

We have got back
to Montreal till yesterday
your name was unable to be
present at the opening lecture
of the Decade a class, but
am very glad to know that
the number of lady students has
increased to fifty one and
that you are able to speak

so favourably of the way in
which the High Education of
Women is tutored in our
Community

I shall be much pleased
to see the Report you kindly
offer to send me

I regret not having been
in when you were so deigning
to call this afternoon, but
if possible shall be with you
at four o'clock on Saturday
Bidding you
Ever
Dear Sir
