Principal Sir J. W. Dawson

My dear Sir

I have to thank you
for your favour dated Jan 11 1886.
Before the first reached me,
we had already sent off the American
edition of the February number.
I am sending your letter and
the errata to the Editor, and will
take care that the stereotype
plates are altered before these
any more are printed

I am exceedingly glad to see
your criticism on Canon Driver's
article, I hope you will be able
to comply with my request (and

that of W. Nicoll) by dealing
with him in an early number
or numbers.

Could you get your
articles set up by type writer, as
in that case it would be unnecessary
to send proof to Canada, but if
you could not, then we will send
proof to you. This means about
3 weeks delay, which is desirable
to avoid if possible

Believe me
My dear Sir
Yours Sincerely
M. H. Hodder
