Dear Sir,

In your interesting  
article on Shell Money  
in L'Amoy, no of Popular  
Science Monthly, you do  
not refer to the wampum  
of the franchises of the  
Canaries, of which  
I have specimens and  
a photograph. They  
made white wampum  
of shell, and black of  
baked clay, as did also  
the people of ancient  
Babeluga. Wampum may  
thus have come by way of  
Atlantic as well as Pacific.  
Truly yours,  
Wm Dawson
