Toronto

March 29th 1886

My Dear William

I forward you today
by Book Post a copy of the
"Manual of Hygiene" issued
with the approval of the
Educational Department
here. It is the work of
Dr Oldright, at whose request
I send it, in the hope that
it may be adopted as
one of your Quetelet

School Inst. Dr Oldright
is a good man; and has given
special attention to this
department. I commend
the little volume to your
favourable consideration.

In the midst of my
ever increasing college duties,
it dawns on my mind
that I must be prepared
to say something at Pres.
of our Canadian R. S.
a month or so hence.
Are there any special
points in the progress of

Canadian Geology; or in
any other matter, that
require special notice?

If anything occurs to you,
please let me know.

Our Annual Meeting
could not well occur at
a more inopportune time.

Our University examinations
run on in May; with
the meetings of Examiners
thereafter, which I shall
be obliged if I have to
miss. It does not do for
me to absent from Toronto
a single day from the 15th.

of Sept. - till the middle of
June, or later.

Thanks for your Annual
Report. Our West seems
a dry, weary affair
to you.

Kindest remembrance to
Lady Dawson.

Yours faithfully
Dan. Wilson
