

GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn L.L.D., F.R.S., Director.

MUSEUM & OFFICE, SUSSEX ST. OTTAWA.

April 14<sup>th</sup> 1886.

My dear Sir Williams,

Your last kind favour was duly received. Many thanks for the sentiments it contained re my mother. It will give me a great pleasure to see you D.V. at Convocation and talk about the Quebec and other rocks. I am at present getting the Jurassic or Jura - Cretaceous & newer plants in order with Mr. Weston. Vol 1 pt 1 of the Bulletin of the Geological Society of Japan has just come, you no doubt have received a copy of it - it is interesting in this work that I am engaged at present for the paper by a Masajiro Yokohama "on the

The Jurassic plants of Kaga, Hida + Echizen  
— provinces of Japan — several species are common  
to the Canadian & Japanese flora in Jurassic to  
Cretaceous times.

The Canadian series will form a handsome  
exhibit and along with the marine + fresh water  
invertebrates during Mesozoic times which have  
been exhibited lately will give a very good idea  
of the richness of our deposits. When all the  
bones that Prof. Cope has just described for  
McCConnell's Report, are in the cases a valuable  
addition they will be. As Mr. Whiteaves wrote you  
no doubt, we are going to get up a collection of  
the species illustrating Mr. Whiteaves last Report for  
your Museum — and we'll see that a choice  
lot is forwarded.

With kindest regards  
& best wishes  
believe me to be  
Yours ever sincerely  
Henry M. Allen.

The Japanese plant of Kaga, Koba + Shiga  
 Province of Japan -  
 to the Commission Japanese plant in Japanese  
 Commission acc. will form a valuable  
 and stay with the museum + field work  
 through surveyor time collection  
 will give a very good idea  
 of the situation of our report. When all the  
 that Prof. C. C. has just described for  
 the Council's report, we in the case as valuable  
 addition they will be. As Mr. Whitson with you  
 on board, we are going to get up a collection of  
 the species illustrating Mr. Whitson's last report for  
 your Museum. We will see that a choice  
 lot is forwarded. With kindest regards  
 + best wishes  
 believe me to be  
 Yours in friendship  
Alfred R. Peck
