

18 Carlton St

Halifax

Apr. 21. 86

Mr. William Dawson F.R.S.E.

Prinapal McGill College &c

Sir

I forwarded by mail the
mass of Pictou limestones, which
I thought probably you might like to
glance at - Afterwards, I would feel
obliged if you would kindly hand it
to the Secretary. I am in hopes of being
able shortly to visit the Antimony mine
& get more information about it. I am
afraid my chances of being present at the
meeting are very doubtful. The local
house is having a very long

session, and my work there
begins. However I shall try to
get up and would like the
change of the trip.

I trust you are quite
well and beg to remain

Yours very truly

Edwin

P.S. I forwarded you copy of
last annual report.
