

15 West 37th St.
New York
May 20th 1888.

Dear Sir,
I take the liberty of sending
you a copy of the Evening Post
containing an article on the
celebration of the doctact of
Edward Zeller, the historian of
Greek philosophy. It is proposed
offering him on that occasion
the expression of the good wishes
of the representatives of science
in philosophy, and scholarship in
the New World; and it is hoped
we may have the honor of
sending him the name of the
president of the British Association
and Principal of the Coll. Harvard.
Contributions received average
\$5 each.

Respectfully yours,
H. Schurman
Sir William Dawson.

Schuman
