

M. Gill College.
Montreal.

June 25/86

Dear Sir,

In reply to your
favor of the 21st I
may say that no far
as I know either the
evenings of Monday and
Thursday or of Tuesday
and Friday would suit
me. My main point
would be to come as
soon after Christmas as
possible and not to
hasten too much ~~and~~

My college work in
January. If only
two lectures weekly
can be delivered I
shall for this year
of fear have to restrict
the course to six. If
three lectures weekly
could be given I might
make it 8.

How would the
following suit you?

Monday and Thursday
beginning Monday Dec 27
& extending to Thursday Jan 13

as prepared,

Tuesdays and Fridays
beginning Tuesday Dec 28.

The illustrations of
the lectures will consist
of large diagrams and
blackboard figures for
W.A. of which you have
no doubt facilities. I
should also bring some
specimens for consultation
after the lectures or
at any special time
when persons interested
might come.

As I leave for England
on Wednesday ^{evening} next I
shall be glad to
have a note from you
before that time. I hope
to be back in Newbern
on September 1st.
