

Stirling Kidston

2 Aug 1886

Dear Sir William -

I am very much in-
: debted to you for fossils
which you have taken so
much trouble to send me.

They are of great value
to me as I shall now
be able to compare your
examples with some British
specimens which I think
may turn out to be your
species - I have also
to thank you for the
copy of your "Rhizocarps"
which I found awaiting

me here -

I hope to see you at
Birmingham on 1st Sep,
but should you be in
Scotland before then,
you will be sure to
let me know -

With kindest regards

Yours
Michael
