

10, JVERDALE ROAD,

KING'S ROAD,

CHELSEA, LONDON,

S.W.

Aug. 16/86

Dear Sir William

D. Herbert Carpenter will be sending me the MS. of the Exoon collection in a few days - & I am to begin to have them written & placed in some form & order if practicable. - I do not wish to have the specimens to keep by me at all - only the MS. as D. Nicholson will (I am told by M.P.C.) examine some special sections (for Canada) we shall have to wait a while for

for his notes -

I have not yet begun to  
pick out from your papers what  
you gave me in conversation  
the other day - namely your very  
good remarks (both general & special  
in their application-) on Logoz  
& its surroundings. - I wish we  
could have them in a written  
form - but you are too busy  
now for that, - & they are rather  
scattered in your papers, -

I am getting through my work  
here (Examination papers, Reports, &c)

as quickly as I can - to be ready  
for Birmingham - where I have a  
very nice invitation (from  
Councillor Lowley Parker), as  
perhaps you may know from Mr  
Cropper -

I need not trouble you  
further just now - Believe  
me ready to your commands  
in whatever I can do to be of  
use to you at any time, and

Yours Truly & Respectfully

Wm. Jones

To Mr. William Dawson, &c.
