Reference

G. Hackins Hey  
Liverpool, Sept 3<sup>d</sup> 1886

Sir,

On behalf of the  
Committee of these classes I have  
been desirous to ask you, if your  
engagements which in this  
Country will permit, whether you  
would do us the great favour  
of delivering to our students  
the Prizes & Certificates framed  
by them last session.

The classes are in connection with  
the Government Science & Art  
Department & give instruction in  
about twenty science subjects &  
in elementary art in eight or  
nine schools in different parts of  
Liverpool. Each year about  
the time when the classes com-  
mence a new session it is  
customary to hold a meeting  
~~for~~ the distribution of Prizes, &c.,  
& some gentleman eminent in  
Science distributes the prizes &  
delivers a short address  
Thinking that you may possibly  
pass through Liverpool on your  
return to America we have  
ventured to ask you if you  
can confer this favour on us, & if  
no we will gladly make such  
arrangements as may suit your  
convenience.

We are sure that very many

of the inhabitants of Liverpool  
would be delighted to <sup>see</sup> hear you  
here.

We recommence our classes about  
Sept 27<sup>th</sup> Inst. the date is not  
fixed definitely until the arrangements  
for our prize meeting are made.

Apologising for thus troubling you  
in the midst of your heavy labours  
in connection with the British Assn.  
I am, Sir, hoping for a favourable  
reply

Very  
Yours faithfully

A. Norman Tate F.R.C.

Secretary of the  
Classes.

To Mr. William Dawson F.R.C.S.
