

Hambur Sept. 4, 1882

TRAVELLERS' CLUB,

Sept 7 PALL MALL,

S. W.

My dear Sir,

At the chance that your
attention may now have been
drawn to I enclose to you a
Cable despatch this morning
published in the Daily News,
being the result of elaborate efforts
so far made to give us some
working notion of the facts in
connection with these disastrous
earthquakes in my native country.
Much interest will be felt in
America as you must see &
comparative address which
are by reason of the Triglar

Confidence, approach between you
regarding the geological and
seismic conditions of Atlantic
America, and the events which
followed so quickly upon its
dehoen, at Birmingham; &
in behalf of my friend Mr. T.
Thomson Rice, proprietor &
editor of the North American
Review, now on his way home,
I shall be very glad if you will
let me know whether your engagements
by you incline you will allow
you to furnish that Review at
an early day with a paper
covering the story & elucidating
the significance of these

Book Marks. In the near time should
be very glad to carry to the editors of America
in publications in the New York Tribune and
in Canada, any comments you may feel necessary
to make upon the enclosed accounts of the Monarchs
in both countries. Please helpes through not
a few earthy notes in Latin and in those that
I hope I don't speak a well adapted very
wonderful & difficult my own Marskan Speeches
and the one to the inference that these marks

on the Atlantic coast upon a distance of
-travelling - not with the Mediterranean coast as
the Eastern Continent - but beyond the Appalachians
and to the West Indies of the Main Indian.

I trust you will excuse this trespass upon your time,
and with much respect I beg you to believe me

Yours sincerely

Chas. Henry Hillcock

Wm. H. Dana.
