Dear Sir,

I am requested by our
Committee to ask you if you will
kindly give a Lecture to our Society
at our New Museum. You may
perhaps remember being present at
one of our Conversazioni; since then,
we have built a Museum and
Lecture Room. As this will be our
first session in the new building, we

are anxious to get lectures that will
draw the People together, and if
you can oblige us, we shall feel
deeply grateful - We would leave
ourselves in your hands as to subject
and time -

Yours sincerely
Henry Stollerfoth -
