Principal Sir Mu,
Dacoma Lm

Dear Sir William.

On glancing through
the columns of ~~the~~
morning's Tribune
Mail I am happy
to notice your safe
arrival and return
to Canada. It would
be presumptuous on
my part to say other

respecting your noble
deeds across the Atlantic
I feel it my duty & pri-
-vilege however to welcome
you back to our shores
and wish that God may
ever so long spare you to
us and grant you all
the strength and power
necessary to carry out
the worthy desires and
anticipations enumerated
at the graduates' dinner
last May.

I am here working out
the Cambro Silurian or Ordovi-
-cian strata their contact with
Lamurian from near Lane Sim-
-coe to Madoc. With greetings
regards for yourself & Lady Darn
I am yours respectfully.
