Sir Wm Lawson D.R.S.)
etc. etc. etc. }
Montreal }

My dear Sir: It gives me sincere pleasure to know that you will prepare the article desired; and the title named by you is quite satisfactory.

Our pages are so pressed with special articles on the current lessons that it would not be possible to find space for the entire article from the Expositor; but I shall be glad to make extracts from it, so as to give its main points to our readers.

Yours with sincere regard
H. May Brewster
