

M^cGill College.
Montreal.

Nov 18, 1886

B. E. Cotting &

Dear Sir,

I take the
earliest opportunity to
answer your favour
of the 17th inst.

As to the number
of Lectures I must con-
fine this to six, as
the time at my dis-
posal will not permit
me to do more. The
subject can however be

Young well treated in
a popular form in
his lectures.

I have corrected the
proof of ticket ac-
cordingly, making the
first lecture on the
28th Dec.

I shall be glad to
have a few tickets re-
served for my dis-
posal, as my wife
or daughter will

probably come with
me and I should
be glad to send
tickets to a few Sciz-
entope friends in
Cambridge & Boston.

Enclosed with this
is a synopsis of the
lectures which I hope
will serve your purpose.

I note what you
say as to diagrams; but
it may be as well for
me to bring them with

Cottage & Avenue
Nov 86

me & some trouble at
Curtains; and I shall
aid in arranging them
myself when I see the
hall.

May I trouble you with
a question as to lodgings.
Where can I find quiet
and good accommodation
for myself & wife & daughter,
not too far from the
Lecture room, a private
lodging would be preferred
to a hotel. Perhaps you
will kindly advise about
this any time before the
middle of Decr.

Truly yours
J. M. Dawson
