

Roxbury, Boston Mass^{ca}
Dec. 14th 1886.

My dear Sir,

I think the plan of giving "abstracts" a good one - It has been done by a few of our Lecturers. It saves the Institute the "fussing about" of Reporters, & ensures a correct Report for the Public.

I pray you to ask me anything & everything that may occur to you regarding the Lowell Institute; & if I fail in satisfactory answers or acts it shall not be for want of will or effort.

faithfully yours
B. E. Cotting.

Sir, J. William Dawson, M.D.
