

Thursday Jan. 20 -

Dear Sir William

My physician
warns me that I had better
not expose myself by speak-
ing tonight. I suffered not a
little from my three days trip
to Genoa & my detention in
the snow & intense cold
so I am reluctantly em-
pelled to ask you to present
my excuses to the Society
this evening. I leave down
now for the South
faithfully yours
Sir J. W. Dawson. F. S. Keyes
