

Cox & Newbery

M. C. Gill College.  
Montreal.

July 28, 1877

Dear Prof. Newbery,

I have to thank  
you for several papers  
recently received, which I  
highly value. When in  
New York for an evening  
recently, I had the  
pleasure of visiting the  
Century club and in-  
quired for you, but found  
you were out of  
town. I have

P.S. I hope to send  
you soon another little  
paper on Western Food  
plants, and shall  
be glad to have anything  
of yours. Yrs  
Ed

received a note from  
Prof. Farch intimating the  
acceptance of my resignation  
of membership of the  
Committee of the Inter-  
national Congress; but  
was surprised to find  
that, instead of presenting  
my actual reasons, he  
had read to the  
Committee and pro-  
posed to print a  
short private note

To him in what I  
spoke of the discussions  
at the Berlin congress  
in somewhat sharp  
terms. I fear this  
may have led to  
some misunderstanding,  
but I have written  
a note of thanks  
stating my reasons  
for resigning.

With all good  
wishes for a good  
year, remain  
Yours sincerely  
J. M. Dawson
