

Cambridge Jan. 28/87

Dear Sir William

I directed a copy of my
Systematic Review of Fossil Insects to
be sent you in my name, and
one is doubtless on its way to you
through the slow medium of the
Smithsonian Institution, but I
very gladly send another, and
when the first comes you will
probably find some one among
your students or associates who
would be glad to have it.

I was very sorry not to be
able to meet you at Dr
Gray's when you were here. My
asthma prevented me, so I
did also from calling on
you afterwards until I learned
you had left.

Yours very truly

Wm. N. Sudden

Scudder
