My dear Sir:

By this mail
I send to your address the
earlier numbers of a little maga-
zine called "The Crisis Course", which
is having a large circulation among
the young people of America, in con-
nection with a popular and wide
spread organization known as The Young
Association.

I desire to know whether Mr.
Cresson's articles on Early Man in
America are justified by the present
condition of scientific research in
that realm. I do not wish to make
use of your name in this matter; but
I shall be glad to be improved by you if

the fact of the correctness or the
incorrectness of Mr. Crossen's
claims. If he is putting false
or unproved theories for facts, in
the instructing of the young, I shall
be glad to know it, in order that
I may speak out plainly and
advisedly in the matter. Hence it
is that I come to you as to one
who can speak with authority.

I have herewith a check
for \$10. as an honorarium;
as I am troubling you to write
a personal letter in a technical
sphere.

Yours with high regard
A. Hay Cromwell
